SUMMARY

Enthusiastic, highly-motivated software engineering student with proven ability to work in a collaborative team environment who is curious, likes to seek out new challenges and eager to learn new things.

EDUCATIONAL BACKGROUND

African Leadership University – Kigali, Rwanda

September, 2022 – Aug, 2025

BSc Software Engineering (Full Stack)

Relevant Coursework: Python, JavaScript, Advanced backend, MySql, Airbnb clone

PROFESSIONAL WORK EXPERIENCE AND PROJECTS

Frontend Developer Intern

January 2024 – April 2024

Odeen Microsystems, LLC – Boston, USA

- Collaborated with a team to build Odeen's official website, using React, Tailwind CSS, and the Mantine library based on provided UI designs.

Rise farmer360 web app

- Worked together with my team to develop a web application featuring a marketplace, a chat room for information exchange, and live weather forecasts specifically designed for farmers.
- Utilised HTML, CSS & JS for frontend and nodejs & MongoDB for backend

PinkRibbon mobile App

August, 2024

- Worked with my team to develop an app for our final project, aimed at educating people about breast cancer and providing guidance on self-examination techniques, using Dart/Flutter and Firebase.

Tour Guide Volunteer

May, 2023

Pan African Mathematics Olympiad – Kigali, Rwanda

- Tour guide

EXTRACURRICULAR ACTIVITIES

Participant, Google Developer Students Club

September 2023 – Present

A member of the club
